AUDITORS' REPORT

Atkinson, N. H., Feb. 21, 1935.

We have examined carefully the accounts of Tax Collector, Town Clerk, Treasurer, Selectmen, Trustees of "Todd Poor Fund" and Trustees of other Trust Funds for the year ending January 31, 1935, and find them correctly cast with vouchers.

Respectfully submitted,

HARLON C. DYKE,
J. HAROLD COLCORD,

Auditors.

TRUSTEES OF LIBRARY REPORT

Last March the trustees of your Kimball Public Library undertook a project, with the advice and consent of the State Library Commission, and reception of financial aid from the C. W. A. and E. R. A. The project is now completed, and where there were two rooms filled with book-stacks the town now has a combination reading room and library. The shelves of books are against all four walls, the room new, inviting, modern.

Federal money to the amount of \$171.25 was paid for the labor, and the town for material, Wright and Son carpenters and Morelli and Son painters doing the work, the former generously giving three days of service.

To the librarian and trustees this seemed an opportune time to re-catalog and mend the books, and to introduce a new filing cabinet and other furnishings. Solicited contributions for this purpose were made by Mr. Page, Dr. and Mrs. Noyes, Mrs. Powers, Dr. Briggs, Mr. Gage, Mrs. Fifield, Mr. Kelly and Mrs. Etz.

At no expense to the town an expert came from Concord to supervise this work, and twenty local volunteers gave from one to three days of aid. In November on the completion of the whole project two card parties were held in the new room and \$9.26 realized for new books.

For the last three years our library has received yearly \$25.00 worth of books from the State. Together with gifts from friends these are the only new books added this year.

It is the hope of the trustees that the town will enjoy this

permanent community improvement, made possible by federal assistance and the generosity of so many friends. And your trustees wish to thank the C. W. A., the E. R. A., and the State Public Library Commission, the donors, the workers and the town. The trustees wish to say that Mr. and Mrs. Reynolds acted out the N. R. A. motto, "We do our part."

HERBERT N. SAWYER,
CHARLES B. WHEELER,
MAY I. S. TUTHILL.

LIBRARIAN'S REPORT

To the Trustees of Kimball Public Library:

The library closed March 31, while repairs were being made and was not again opened to the public until Sept. 22, with the exception of allowing High School pupils the use of the book reports.

Since Sept. 22 the Library has been opened each Monday from 2 to 5 and Friday from 12 to 1 o'clock in the afternoon during the school year, each Saturday from 2 to 5 in the afternoon, from 7 to 9 in the evening.

Number of books given out since Sept. 828; largest number in one day 57.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and the Citizens of Atkinson:

It is a pleasure to present my eighth annual report as Superintendent of Schools. Reports are also submitted by the

Music Supervisor and the School Nurse.

The school organization for 1934-1935 is given in the table

at the end of this report. Mrs. Ruth Evans resigned her position as teacher in the grammar school, and Mr. Robert Hill, a graduate of Keene Normal School, was elected to the position. The other teachers are the same this year as last year.

The enrollment of pupils last year was 70, which is 1 less than during the previous year. Our record of attendance is creditable. The attendance averaged 94.95% of the membership. The average for the state was 94.9%. Seven pupils completed the work of the eighth grade, and all of these entered secondary schools. The attendance contest is being held again this year. The attendance banner is awarded each month to the school having had the best attendance, and the rivalry for this honor is noticeable.

The activities of Supervision are centered in helping the children to real achievement, growth in character and citizenship and happy living. Visits, tests, conferences, and teachers' meetings are employed in directing the work of the schools. Parents have been helpful, but more contacts with them would be welcome.

In the schools there has been an earnest endeavor to discover the needs, defects, incapacities, as well as the abilities of the pupils, and to diagnose and prescribe for the pupil as an individual. In order to make this adjustment of the school to the pupil a testing program has been used in every grade room

in all the schools. The achievement made by the children is satisfactory. We are fortunate in having only one change in our teaching staff. Our teachers are giving very satisfactory service. Their schoolrooms are places of homelike living and of real accomplishment.

Present day elementary and secondary school instruction demand a larger collection of books and other reading materials. When instruction was largely of the drill type, a textbook was sufficient for that method, but now that the project, the problem, and the laboratory methods and unit assignments are the recognized modes of teaching, a single text book does not suffice. There should be supplementary material and some sort of a school library.

Since the amount of leisure time is increasing, not only for adults because of shorter working hours, but also for children because home occupations in which they once had a part are disappearing, library service is essential, not merely for supplementary textbooks, but for providing reading material for leisure time without reference to assigned lessons. Children should read books for "the fun of it." If this is made a school objective, the reading habit for leisure time may become well established.

Children when undernourished or insufficiently clad cannot attend school regularly or profit from instruction. While the number of such children is somewhat smaller than it has been, yet there has been need for some relief. No single feature of state and federal relief has a greater bearing on the health of growing children than the daily distribution of milk to those children in need of same. Through the initiative of Ex-Governor Winant, federal funds were secured and free milk service has continued since early in 1933. At present 6 pupils are receiving one-half pint of milk each per day at school. Cod liver oil has also been furnished in the same way.

The Red Cross and the 4-H Club, through their generous contributions have made it possible to furnish needed clothing. Federal funds have been available which have enabled Miss Thomas to do considerable remedial work with defective teeth, eyes, and tonsils in children where the homes could not pay for such work. A number of the children attended the dental clinic at Plaistow. It is certain that the relief that is being furnished will do much to prevent the distress of the present period from leaving its mark upon the next generation.

It is more evident than ever that better opportunities come to boys and girls that attend high school for four years. To-day the child that does not go through high school is the exception as in former times, those that did complete high school were the exception.

November 4th to the 10th was observed as American Education Week in our schools. All children were asked to extend invitations to their parents to visit schools during that week. Afternoon sessions were visited by large numbers of interested parents. Parents were thus able to see how our classes are conducted today, and to learn what their children were accomplishing in the classroom. In order to have a closer contact with our schools more parents should avail themselves of opportunities to visit the classroom.

It seems likely that Atkinson will at some time wish to consider seriously the possibility of centralized schools. Two of our schools are small. There is no doubt that the children could be given better training and the cost to the town, aside from the building, would be no greater.

The Federal Emergency Administration of Public Works will assist in some school projects in this state. It would seem worth while to find out more about their plans as soon as they are more definite. If the buildings are to remain as they are, then modern toilets should be installed at the Village Grammar School.

Mrs. Thompson continues her effective work in music instruction. She has made the children love good music and happy while studying it. The music at programs in the schools and at graduation is concrete evidence of her effectiveness in this capacity.

In conclusion I wish again to express my appreciation for the fine co-operation and support of the School Board, Townspeople, Parents, Teachers, and Pupils during the year.

Respectfully submitted

WILLIAM J. NELSON,

Superintendent

REPORT OF THE MUSIC SUPERVISOR

To the Superintendent of Schools:

I hereby submit my annual report as Supervisor of Music in the Atkinson schools.

Music education in our schools begins in the first grade, the children are taught to sing tunefully many beautiful and worthwhile songs. Music reading which is introduced in the second grade is carried on through the eight grades of grammar school.

Music lovers and intelligent listeners are being created through our musical appreciation course. Recognition of musical instruments is taught by sight and sound. Each choir of instruments is studied separately and then the orchestra as a whole.

“The Tea House of Sing Lo” an operetta in two acts by Morgan and Protheroe was presented by the pupils of the Academy February 16th. The operetta was well received and a success financially.

In closing I wish to express my thanks to you and the teachers for the hearty cooperation extended me throughout the year.

Respectfully submitted,

EVA W. THOMPSON
